

The requirements for the Michigan Propane Gas Association (MPGA) Cathodic Protection (CP) Tester recertification are as follows:

- Recertification may be accomplished by either satisfying the work experience requirements, or by passing the half-day CP Tester refresher class. Neither of these options can be used without submitting a copy of your original signed certification paper from National Pipeline Services. If you do not have the original certificate, then you must retake the regular two-day class again to receive certification.
- For your certification to remain current, you must complete at least five (5) documented CP tests and submit this application for approval every three (3) years. Send required documents to the MPGA office.
- Please complete the entire application and return to the MPGA office. Please note:
 - All work experience must be since the original certification or the last recertification.
 - Please retain a copy of this application for your records.
 - The recertification renewal application fee is \$60.00, payable to MPGA.

For assistance with completing the application, contact Keith Boswell at kboswell@nationalpipelineservices.com.

Refresher Class (visit mipga.org for schedule and locations)

WORK EXPERIENCE

List a minimum of five specific cathodic protection tests conducted over 3 years for the company where you are/were employed, with a copy of the actual test data sheets.

Company Name _____ Date(s) of Employment _____

Job Title _____

1. Type of Test	Location of Test	Month/Year Tested
2. Type of Test	Location of Test	Month/Year Tested
3. Type of Test	Location of Test	Month/Year Tested
4. Type of Test	Location of Test	Month/Year Tested
5. Type of Test	Location of Test	Month/Year Tested

ATTESTATION

I hereby:

1. Recognize and acknowledge that cathodic protection can be critical to the safety and welfare of the general public.
2. Recognize and acknowledge that cathodic protection testing is required by LARA.
3. Recognize and acknowledge that the quality of my work reflects upon the entire profession of corrosion control as a whole.

Therefore, I:

1. Agree to pursue my work with fairness, honesty, integrity and courtesy.
2. Agree to apply myself with diligence and responsibility to the CP work within my control.
3. Agree not to represent myself to be proficient or make recommendations in phases of CP work in which I am not qualified by knowledge and experience.
